## CONTROL STICK FUNCTION

The Nintendo® 64 Controller contains a Control Stick which uses an analog system to read the angles and direction of its movement. This allows subtle control that is not possible using the conventional + Control Pad.

When turning the Control Deck power ON, do not move the Control Stick from its neutral position on the Controller.

If the Control Stick is held at an angled position (as shown in the picture on the left) when the power is turned ON, this position will be set as neutral. This will cause games using the Control Stick to operate incorrectly.

To reset the neutral position once the game has started, let go of the Control Stick so it can return to its center position (as shown in the picture on the left) then press **START** while holding the **L** and **R** buttons.

The Control Stick is a precision instrument, make sure not to spill liquids or place any foreign objects into it.

## STARTING THE GAME

1. Turn OFF the POWER switch on your Nintendo 64 Control Deck.  
**WARNING:** Never try to insert or remove a Game Pak when the power is ON.
2. Make sure a Controller is plugged into the Controller Socket 1 on the Control Deck.
3. If you're playing against a friend, plug the other Controller into Controller Socket 2.
4. Insert the Game Pak into the slot on the Control Deck. Press firmly to lock the cartridge in place.
5. Turn ON the POWER switch. The *Controller Pak* verification screen appears. If you don't see this, begin again at step 1.
6. Press **START** to skip the introductory screens and proceed to the Main Menu (➤ p. 5).

## START YOUR ENGINES

*Beetle® Adventure Racing* delivers a whole new breed of fun. Not only do you get a top-notch racing game, you also go on a new adventure with every new track. Shortcuts and secrets are hidden everywhere. You might smash into a wall or window or take a giant jump only to find yourself on a part of the track you never knew existed. If you explore the tracks in Single Race, you'll be unstoppable in the Championship.

### MAIN MENU

The Main menu appears following the *Beetle Adventure Racing* introductory screens. Use this screen to choose the game mode and set game options.

## MENU NAVIGATION

| ACTION                            | CONTROL          |
|-----------------------------------|------------------|
| Highlight menu item               | Control Stick ↑  |
| Change highlighted item           | Control Stick ←→ |
| Select and advance to next screen | <b>START</b>     |
| Cancel/Return to previous screen  | <b>B</b>         |

## QUICK START

### To start a single-player race:

1. Select **ONE PLAYER** from the Main menu. The Race Type screen appears.
  2. Select **SINGLE RACE**. The Opponents screen appears.
  3. Select **FULL GRID** to race against a whole field of computer-controlled cars, **DUEL** to face one opponent, or **TIME ATTACK** to race against the clock.
  4. Select **EASY**, **MEDIUM**, or **HARD** opponents. The Track Select screen appears.
  5. Select the track you want. The Car Select screen appears.
  6. Select your car and color. The Transmission screen appears.
  7. Select **AUTOMATIC** or **MANUAL** transmission, then press **START**. The race begins.
- ◆ If you want to use the Rumble Pak™, insert it into the Controller, then press **START**. The race begins.

## GAME MODES

Get in your car and step on it! Your adventure has begun. Single Race mode gives you a chance to explore the tracks, discover the shortcuts, and familiarize yourself with the game controls before you face the serious challenge of a Championship Circuit. You can also race in the head-to-head competition of Two Player mode or duke it out with up to four friends in the wacky free-for-all of Beetle Battle.

### ONE PLAYER

Explore the tracks and find all the shortcuts. One Player mode gives you a chance to compete against the clock, one computer opponent, or a whole field of computer-driven cars.

### TWO PLAYER

Test your track knowledge and driving skills against a friend on any of the available tracks.

### BEETLE BATTLE

Beetle Battle is no-holds-barred racing mayhem held in a variety of unique game arenas. You and up to three friends can go head-to-head as you make a mad dash to gather hidden objects and race to the arena exit.

The first driver to collect all six ladybugs and find the exit is the winner!

When dropped, these crates damage anyone who hits them.

Activate this mystery item and watch what happens to your opponents!

These projectiles lock onto the nearest opponent and cause nasty damage.

Aim these projectiles correctly, and you'll hit another player and steal one of his or her ladybugs.

This box increases your health if you've taken damage.

This box drains your health when you drive into it.

Activating this item makes you invincible for a little while, so opponents beware!

Watch your damage meter! If your car is destroyed you lose one of your ladybugs.

## CHAMPIONSHIP

If you want to race against the big boys, you'll have to earn it. If you race well and get enough points, this is your opportunity to unlock more tracks and cars.

To progress to the next race in a Championship Circuit and keep any new tracks you encounter, you must place at least third in the overall Circuit Standings. If you place too low, you must start the circuit over again. Finish first in the final Circuit Standings to win the current Championship and unlock access to the next Championship Circuit and the next level of cars.

## BONUS ITEMS

Collect Bonus Boxes worth 2, 5, and 10 points to earn special bonuses in a Championship Circuit.

In the Championship Circuit you can also collect bonus points by smashing into Bonus Boxes scattered about the track. If you don't qualify to advance to the next race, but manage to smash enough 2, 5, or 10 point Bonus Boxes to earn a "continue," you are allowed to try a track again, instead of starting over at the very beginning. If you don't need a continue for a particular track you can save it for a later race.

Check the hidden paths to find all of the Bonus Boxes. Collect 100 bonus points on a track during a Championship Circuit to unlock secret new arenas for Beetle Battle.

Smash into a Nitro box and you'll get plastered to the back of your seat by a jolt of speed.

## SPLIT TIME

Any One or Two Player Game mode which includes another opponent displays a Split Time Meter in the top right corner of your display (underneath your race time). The Split Time Meter flashes on periodically to let you know how far behind the lead opponent you are. It also *warns* you when you are falling too far behind:

- ◆ If you fall too far behind the other racers, you are disqualified and must restart the race.
- ◆ In a Championship Circuit, a disqualification means that you have to start the circuit over. If you have a "continue," you may start again from the current track.
- ◆ In Two Player, disqualification means you have to wait while your opponent finishes the race.

## OPTIONS

- ◆ To customize your settings for the upcoming race, choose **OPTIONS** from the Main menu.

### AUDIO

Set the volume level for speech, sound effects, music, and adjust the sound option to STEREO or MONO.

### GRAPHICS

#### DISPLAY

Toggle the entire Display ON/OFF. Set to OFF for a clutter-free racing screen.

#### MAP

The player cars are shown on the map as large dots in the color of their cars. Computer-controlled cars appear as smaller white circles. Select **ZOOM**, **FULL**, or **OFF**.

BEETLE ADVENTURE RACING

BEETLE ADVENTURE RACING

**ZOOM:** This map setting zooms in on a portion of the track. Watch the map to get ready for upcoming turns and see if your shortcut is really a shortcut.

**FULL:** This map shows you and your opponents on a scaled-down version of the entire track.

#### **SPEED**

Toggle your speed display between miles-per-hour and kilometers-per-hour.

#### **LANGUAGE**

Choose your language for menu screen and in-game text.

#### **CONTROLLER**

Select one of three preset controller configurations, or set up your own custom controller configuration.

## **THE COURSES**

### **Coventry Cove**

Stately castles and charming countryside are great if you're about 1,000 years old. Break-neck speeds and some serious air should stir things up a bit!

### **Mount Mayhem**

Yodel-a-he-who can manage to stay on the mountain will probably win this one. These icy mountain passes and hairpin turns would panic a mountain goat.

# INFERNO ISLE

The lush jungles and long stretches of beautiful beach on Inferno Isle would be the perfect spot for a relaxing vacation. That is, if there wasn't a volcano spewing lava all over the place and a pack of crazed racers thrashing around the island.

# SUNSET SANDS

This land of the ancient pharaohs is a fascinating region, ripe with historic buildings and mysterious monuments. So what? Everything gets a little blurry when you whiz by at top speed.

BEETLE ADVENTURE RACING

# METRO MADNESS

City driving can be a little nerve-racking, especially when you're on two wheels doing full speed. The term off ramp takes on a whole new meaning when you're infected with Metro Madness.

# WICKED WOODS

What dangers lurk here...no one knows!

BEETLE ADVENTURE RACING

## SAVING AND LOADING

In order to save Championship progress and Records, you must have a Controller Pak in Controller 1 before you start *Beetle Adventure Racing*. When you start the game with enough room on your Controller Pak, a four-page memory file is created.

**NOTE** *If you need to delete files on your Controller Pak in order to make room, please refer to the instructions that came with your N64.*

Once you have a *Beetle Adventure Racing* memory file, you can beat Championship Circuits and save your progress.

- ◆ To save a completed Championship or new Record, follow the onscreen prompts that appear.
- ◆ You can switch between the Controller Pak and the Rumble Pak (when prompted). With the Rumble Pak you feel jolts of feedback during a game.
- ◆ Only one *Beetle Adventure Racing* file can be saved on each Controller Pak. If you choose to overwrite the existing file to start a new Championship, your existing file is lost.
